THE TOWN

Most of the life of Matelica revolves around the central **Piazza Mattei** with its elegant seventeenth century fountain. Around it you'll find the town's chief attractions - the **Loggia of the Ottoni** family, built by the town's ruling family in 1511 and the 13th century Palazzo Pretorio, topped by an 18th century tower.

Also worthy of note are the **Cathedral**, with 15th century bell tower, in Corso Vittorio Emanuele, and the **church of the Maddalena**, with its Romanesque portal and façade.

A visit to the Civic Museum, the **Piersanti Museum**, the Theatre **Piermarini** (built at the end of the 19th century in the traditional horseshoe shape) and the City Library is strongly suggested.
