

Project code: 2022-1-IT02-KA171-HED-000073309

Name and Surname: Gerald Muça

Home Institution: Agricultural University of Tirana

Host Institution: University of Camerino/School of Biosciences and Veterinary Medicine

Type of mobility: Training

Duration: 8 days

Description of the activities:

It was the first time I visited the University of Camerino and the campus of the School of Biosciences and Veterinary Medicine. I was warmly welcomed by Erasmus+ coordinator Prof. Giacomo Rossi and other wonderful colleagues like Prof. Laura Menchetti and Prof. Alessandro Troisi. I had the chance to visit the hospital of companion animals. Here, Romina, a PhD student, very kindly accompanied me in every section of this hospital, where I learned about the organization and workflow. I was welcomed by Prof. Troisi to assist in an ovariectomy surgery conducted by laparoscopy and followed the assessment of post-thawing cryopreserved biological material in dogs (see the photos below).

I would consider this visit useful; I met with new colleagues, especially from the reproduction unit, which is my subject I cover at our faculty. I made new contacts, which I hope could lead to new collaboration in the future, and also saw a different organizational approach.

Project code: 2022-1-IT02-KA171-HED-000073309

I will also encourage my colleagues and students from our faculty to come and visit the University of Camerino, especially the School of Biosciences and Veterinary Medicine. At the end. I would say that my visit here was perfectly organized from the first to last day.
