Type of mobility: Training

Duration: 8 days

Description of the activities:

During the period spent at the School of Biosciences and Veterinary Medicine I had the chance to visit the structures and facilities of the Veterinary campus in Matelica. I visited the hospital of small animals and had the opportunity to get in touch with practices that are used in this hospital. Moreover, during the period spent at the campus I was encouraged by the Italian colleagues to be present at the surgery room where I had the opportunity to follow specialized surgical procedures. Furthermore, I visited the laboratories and I consider that experience very useful in terms of machineries used to analyse blood samples and other biological materials. For reference please see photos below

I also spent many time at the Physiology unit since it is the subject I cover in my home country. Overall, I consider this experience very useful since I made new contacts which can lead to new possibilities in terms of future collaboration. Finally, I would like to thank Professor Giacomo Rossi, Prof.

Allessandro Troisi, Prof. Laura Menchetti and Dott. Romina for their help during the period spent at the University of Camerino.

I would also like to mentioned the the organisation of my visit at the University was just perfect from the beginning till the end.
