*Name and Surname:* Maria Chiara Invernizzi

*Home Institution:* Università di Camerino

*Host Institution:* Universidad Nacional de Salta (UNSA)

*Type of mobility:* Staff mobility for teaching and training

*Duration:* 12 days

*Description of the activities:*

During my stay at "Facultad de Ciencias" of Universidad Nacional de Salta (UNSA) I had official Meetings with the International Office staff and the Head of the department on the 23<sup>rd</sup> of April (Fig. 1)

I attended a Workshop on renewable energies organized in the frame of the "Giornate CUIA in Argentina) on the 24<sup>th</sup> of April at Jujuy University (Fig. 2). In this occasion, I had the opportunity to meet colleagues I worked with in the past and new colleagues (Fig.3-4). Furthermore, one of the researchers of the Salta research group Dr. Filipovich) presented a communication during which the PhD Student Matteo Pedini (outgoing student at Salta with the Erasmus+ KA171 for 2 months) intervened to show his project (Fig. 5-6)

My official commitments continued April 25<sup>th</sup> with 4 hours of seminars (a sort of short course) on petrography and the use of fluid inclusions in minerals and Lab experiences; title "Fluid Inclusion Analysis in minerals" (Figg. 7-9)

We also visited the new lab for fluid inclusion and cathodoluminescence at UNSa and in the following days I was involved in the setting of the Equipment in Fluid Inclusion Lab and some analyses (Figg. 10-13).

For the remaining time I was supervising with a Colleague of UnSa part of a PhD research that we're performing together with a PhD from Unicam and in preparing abstracts for conferences and SGI Congress.

I was also involved in the selection of Argentinian students incoming to Italy with the Salta Colleague Filipovich: they will come in the next month within the Erasmus+ agreement

Social and cultural activities were also included in my staying: I was involved in the national demonstration in defense of the public University on 22 April (Fig.14).

Typical "Asado" and local music were included in the evenings and weekend with nice satisfaction! (Fig. 15)
