*Description of the activities:*

I would like to express my sincere gratitude for the opportunity to participate in the academic mobility program. It was an incredibly valuable and enriching experience that exceeded all my expectations.

During my time abroad, I was able to significantly improve my English language skills through daily communication in an international academic environment. Being immersed in a multicultural setting also allowed me to become more confident, independent, and open-minded.

One of the highlights of my experience was the opportunity to discover and explore Italian culture firsthand. I was fascinated by the traditions, cuisine, architecture, and warm hospitality of the people. In addition to my studies, I had the chance to visit many cities across Italy and the European Union, which broadened my horizons and deepened my understanding of different cultures.

The academic component of the program was equally rewarding. I gained new knowledge in my field of study, exchanged ideas with students and professors from diverse backgrounds, and developed a more global perspective on my future career.

Overall, I am extremely satisfied with the mobility program. It gave me not only academic and professional growth but also unforgettable personal memories. I would highly recommend this experience to anyone who has the chance to take part in it.
